

WHAT IS IT?

InSource Training Tracks are pre-paid class bundles designed to help you quickly identify the appropriate Wonderware training course sequences for the products and/or projects you are responsible for. A Training Tracks approach allows you to better plan your professional development for the year while taking advantage of bundled package discounts.

COST

Training Track bundles are discounted from individual class purchases.

DELIVERY

■ 1. IDENTIFY YOUR TRACK

INSOURCE OFFERS 2 STANDARD TRAINING TRACKS:

InTouch Classic Stand Alone Track:

Choose this track if you are using tag-based InTouch Classic in a stand-alone architecture to configure your device I/O, Alarms, Scripting, etc., which could include integration with stand-alone Historian and Historian Client Tools.

System Platform Track:

This track is for you if you are utilizing System Platform/Galaxy objects while using the Integrated Development Environment (IDE) to configure your device I/O, Alarms, Scripting, Historical logging (to WW Historian) and using InTouch as the HMI View Client.

INSOURCE OFFERS 2 CUSTOM TRAINING TRACKS:

Manufacturing Execution Systems Track:

Manufacturing Performance Management Systems Track

See the Track Descriptions [below](#) for details.

■ 2. REQUEST YOUR QUOTE

Once you know the track you need and how many, request a quote by sending an email to training@insourcess.com. Track bundles purchased are discounted from normal class purchases.

■ 3. CHOOSE YOUR COURSES FROM THE PURCHASED TRACK

The tracks are shown below and the recommended course order is from left to right. Please be aware of the [course Pre Requisites](#); They really do matter. Identify the courses you need based on your responsibilities in the plant and then plan your time accordingly. Note: Most classes take the majority of a week. (Tue-Fri).

Note: More than 1 person in a company can take classes from the same track.

4. REGISTER FOR YOUR CLASS

Classes are offered in locations across the Southeast with a mix of venues including classroom, on-line and on-site. For classroom and on-line classes, see the schedule and register here:

<http://insource.solutions/resources/calendar/>

Click on the class name for a detailed outline. For on-site classes, please email training@insourcess.com.

Note: InSource offers courses from the Wonderware portfolio that are not regularly scheduled but are available upon request. We will offer these classes at standard pricing at any venue if we can meet a 4-student minimum.

TRACK DESCRIPTIONS & PRE-REQUISITES

INTOUCH CLASSIC STAND-ALONE TRACK

This track is for you if using tag-based InTouch Classic in a stand-alone architecture along with stand-alone Historian and Historian Client Tools. Note: If you are using System Platform/Galaxy objects to configure your I/O, Alarms, Scripting, Historical logging and using InTouch as the HMI View Client, you should take the System Platform training track.

4 Days	2 Days	2 Days	2 Days
InTouch Classic Stand-Alone	Wonderware Communications	Historian Server	Historian Client
