Digitally Transform Your Mobile Workforce

Achieve operational excellence in the palm of your hand with the industry-leading operator driven reliability solution

Improve Reliability, Safety and Productivity

Operator Rounds

- · Reduce maintenance costs with early detection of equipment failures
- Supports continuous
- improvement programs Improve production efficiency and identify incident avoidance by capturing key operational data

Maximize Wrench Time

- Increase labor productivity while reducing rework and backlog
- Reduce maintenance and inventory carrying costs
- Optimize MRO work order planning and execution

HSSE Compliance

- Timely scheduling and execution of Federal, State, and Local regulatory inspections · Heightened awareness to precursors
- that could lead to HSSE incidents Highly accessible data improves
- day-to-day compliance tracking and regulatory reporting requirements

Lockout/Tagout

 Prevent unexpected energization, start-up, or release of stored energy · Prevent injury to employees

development, documentation and

- · Mobile framework supports the
- enforcement of LOTO Control and Release Procedures

BYOD

- · Enhances productivity by allowing workers to use a device fit for purpose Increased worker satisfaction
- through use of preferred up-to-date devices
- Lower total cost of ownership through increased device options that range from consumer-grade up to Zone 1/2 Haz Loc rated devices

· Easily integrate this data to 3rd party systems · Clearer visibility into the state of the business enabling well informed intelligent decisions

Knowledge Transfer · Digitize, capture, and share expert

- knowledge to help guide employee development Ensure business continuity and minimize
- knowledge loss due to attrition Easily share knowledge across the enterprise

Procedure Enforcement

awareness to their environment

 Realize increases in plant safety, availability and reliability

· Facilities consistent use and continuous improvement of best practices

by reducing human error

· Enhance situational awareness and effective decision making in real time

Ensure predictable and safe work practices

Barcode and RFID · Improves accuracy and efficiency

of task execution

"Using IntelaTrac has made a major contribution to reaching a plant availability factor above 90%, since it has integrated perfectly with the other innovations added to our equipment."

Mauro Tassistro, Applications Team Leader, Infineum

It's all about Return on Investment!

Over 30

of the top 100 chemical companies

Proven technology and industry expertise

- Chris Victoriano, Operator Training/Super User, Cornerstone Chemical Company

High performance, great savings

88% reduction in pump failures

in the first year saving \$500,000

Real customer savings achieved from implementing mobile operator rounds with IntelaTrac

in production downtime

\$225,000 saved in increased productivity of PM to operations

\$80,000 saved in training, knowledge transfer and reduced mean time to permit
