

Accelerate Your Growth

InSource InSider®

Delivering value-add services that meet your unique needs.

As Manufacturing continues to shift into Industry 4.0, factories must adapt to the increasing demand of onboarding workers with diverse knowledge and skillsets. At InSource Solutions, we believe in putting your needs first by delivering the best services for your factory's unique wants and needs. Our InSource InSider offering provides an array of tools, training, and expert assistance that can benefit both new and experienced workers.

InSource InSider - Features and Benefits

InSource InSider offers a comprehensive solution that helps you quickly onboard new employees and equip your current team with the necessary skills to succeed. Our services also allow your team to test various software packages before making a purchase decision. With InSource InSider, your factory can build a strong sense of community among its team and within your industry.

Our cutting-edge tools and collaborative platform promote knowledge sharing, enabling you to stay ahead of the curve in the fast-paced world of Digital Transformation.

UNLIMITED TRAINING FOR YOUR WORKFORCE

Unlimited training empowers your team to develop and maintain comprehensive knowledge about how the software's intended operation and configuration. This includes onboarding new employees or keeping current team members up-to-date with the latest advancements. With this knowledge, your team can self-deploy and maintain your system, eliminating the need for costly external support.

SCHEDULE AN EXPERT

Need to talk to an expert? You will have access to InSource Solutions' intellectual property through our people, allowing you to schedule sessions with our product and industry specialists easily. Subscribers also enjoy special discounts for Health Checks and Analytics Readiness Assessments

INDUSTRY AND PRODUCT FORUM

Our Forum is an excellent platform for your team to ask questions and seek suggestions from other users on how they utilize the same software.

Knowledge sharing: creates a community of knowledge surrounding the software. You can communicate with industry experts and peers to share insights and ask questions that may not be possible elsewhere.

Community building: fosters a community of users who share common interests, goals, and experiences within and across industries, enabling valuable knowledge exchange and providing access to insights and suggestions.

Client support: serves as a platform for your factory to seek advice and support from one another regarding their industry and use of the software. Our InSource experts are available to help you make the most of the software.

Tricks of the trade: helps find use cases for new and existing software that you are looking into with the help of your peers. Engage with your counterparts to get the most from your existing software investments.

MEMBERS ONLY CONTENT

InSource InSider allows access to content that provides detailed instructions and guidance based on InSource's learnings around our software offerings and preconfigured example solutions. This will enable your factory to deploy solutions faster, accelerating self-driven projects and providing an accelerated realization of ROI.
